Track closers & hold-open clip improvements

LCN continues to make product improvements to ensure reliable and dependable door control. The latest improvements are with all track arm closer series. Improvements were made to the track, roller, hold-open clip and bumper assembly. Based on the 4031T HO closer, the new design features a non-handed mechanism, variable hold-open angles, no hold-open force adjustment necessary and a reduction in ordering variation.

Old design

New design*

* New design includes updated track, roller, hold-open clip and bumper assembly

Impacted Series

Below is the list of impacted series:

- **Series:** 1460T, 2010, 2030, 3130, 4010T, 4020T, 4110T, 4040T, 4000T, 2310ME, 4310ME, 4310HSA, 4630, 4810, 2610, 9130, 3130SE, 4040SE, 4040SEL, SEH, 6030

Transition Dates

The 2030 low profile track only, 2610, and 9130 Series begin shipping February 24, 2016; all other products (from above list) begin shipping February 8, 2016:

For additional information, please contact your local SSC office or call Customer Care at 877-671-7011.

Ordering Updates

Orders shipped on or after the dates listed above for new track arm door closers will come with the new track, roller, hold-open clip and bumper assembly. The hold-open mechanism and bumper assembly will no longer be fully assembled, but included in the screw bag when a track arm closer is ordered.

For replacement parts on product shipped on or after the transition dates listed above, all individual components can be purchased. For replacement parts on product shipped prior to the transition dates listed above, sets of replacement parts will need to be ordered to work together properly.

See charts below (3) for ordering instructions – broken out by impacted product series:

The following applies only to the 1460T, 2010, 2030, 3130, 4010T, 4020T, 4110T, 4040T, 4000T, 2310ME, 4310ME, 4310HSA, 4630, 4810, 2610 and 9130 Series:				
If this is the replacement part you need			These are the replacement parts you will need to order for product purchased before the transition dates	
Current Part	Description	Hold open?	Replacement Parts	Descriptions
